The UIAA has been granted recognition by the International Olympic Committee as an International body or federation. The UIAA is also a member of the General Association of

International Sports Federations (GAISF). As long as the CEGC/ICCIC is not recognized by the UIAA, it aims at becoming itself a member of the fore mentioned bodies/organizations.

- 3.3. International Competition Officials: The CEGC/ICCIC maintains the right to formally appoint the following officials to each CEGC/ICCIC-approved competition.
  - a) President of the Jury - Has overall authority within the competition area; i.e. from the point where competitors and others enter the isolation zone to the point where they exit the competition area in front of the climbing structure and return to the public section of the arena; this authority extends to covering the activities of the media and all other persons nominated by the organiser. The President of the Jury has overall authority with respect to all aspects of the running of the competition and presides over all meetings of the CEGC/ICCIC Officials. In addition, he/she presides over all organisation and technical meetings with the competition organisers, team officials, competitors, etc. The President of the Jury is required to submit a detailed report on the competition and on each 'Aspirant' Judge undergoing the final phase of their international training programme.

The CEGC/ICCIC Delegate has the right to attend all meetings with the competition organisers and take part, in an advisory capacity, in all meetings of the Competition Jury. The CEGC/ICCIC Delegate deals with all non-competition matters during the running of the competition and shall submit a detailed report on the competition.

climbing rope pre-fixed to the first (and, where deemed appropriate, other) protection points. Wherever possible, the design of the route should be such as to make such precautions unnecessary.

- 5.5. Before the start of each round of a competition, the Category Judge shall ensure that appropriately qualified medical personnel are in attendance in order to ensure a rapid response to any accident or injury to a competitor or official working inside the competition/isolation zone area.
- 5.6. All safety equipment used in a competition shall comply with UIAA standards unless otherwise specified by the CEGC/ICCIC or, under exceptional circumstances, by the President of the Jury through the authority delegated to her/him by the CEGC/ICCIC. Within these general requirements:  
Competitors shall use a single rope provided by the organisers. The frequency with which the rope is changed shall be decided by the Category Judge.

Under specific circumstances, the CEGC/ICCIC Delegate may be instructed by the CEGC/ICCIC to carry with him some technical equipment, providing the organiser with that gear (maillon rapide, ropes, etc.) which is not available in their countries, due to different market offers. The CEGC/ICCIC will charge the cost of this gear to the competition organiser.

- 5.7. Equipping of routes: The following safety precautions shall be observed:
- a) Maillon Rapides and quickdraw slings: Each protection point to be used during a round of a competition shall be equipped with a 'quick-draw' sling and carabiner through which a competitor shall connect the rope. The connection link between the 'quickdraw' sling (with no intermediate carabiner) and the protection point shall be made by means of a UIAA-CEGC/ICCIC approved Maillon Rapide.  
**NOTE:** the sleeve of the Maillon Rapide must be closed and tightened in accordance with the manufacturer's approved specification.
- b) Where an extension of a normal quickdraw sling is required, a continuous (machine sewn) tape sling of the same strength (or greater) shall be used in place of the normal, shorter quickdraw. Adhesive tape may be used to hold the loops of the sling together; under no circumstances shall such slings be shortened or adjusted by means of knots. Under no circumstances shall a chain of normal length quickdraws (connected to each other by either Maillon Rapides, or locking or non-locking carabiners) be used. Knotted rope or tape slings shall not be permitted .

- 5.8. Belaying: At the start of each attempt on a competition route:
- a) Each competitor shall be equipped in accordance with the CEGC/ICCIC regulations governing equipment;
- b) The climbing rope shall be tied to each competitor's climbing harness using a '8' knot which itself is secured with a safety knot;
- c) Before the competitor begins his/her attempt on a route, the belayer shall check (preferably in the transit zone) that the rope is secured to the competitor's harness in accordance with 5.8(a) and 5.8(b) above, and that the harness is properly fastened up;
- d) Before accompanying the competitor to the start of the route, the belayer shall ensure that the rope is coiled in such a manner that it is ready for immediate use;

- e) Difficulty Competitions: Each Category Judge shall, in consultation with the International Forerunner, decide whether a belayer should have an assistant at the beginning of the route to provide additional security (i.e. to 'spot') for a competitor during the lower part of his/her attempt on a route;
- f) Speed Competitions: The Category Judge shall, in consultation with the International Forerunner, decide whether a belayer should have an assistant at the beginning of the route to provide additional security in taking in a top-roped competitor.

5.9. The belayer must at all times during a competitor's attempt on a route pay careful attention to the progress of the competitor to ensure:

- a) That the competitor's movements are not hindered in any way by the rope being too tight;
- b) That when the competitor attempts to connect the rope to any protection point he/she is not hindered in doing so or, if failing to make the connection of the rope to the protection point, any excessive slack in the rope is immediately taken in;
- c) That all falls are stopped in a dynamic and safe manner;
- d) That no excessive falls shall be experienced by the competitor being belayed;
- e) That great care is taken to ensure that in stopping a fall a competitor shall not be exposed to injury caused by the edge of an overlapping section or any other feature of the climbing structure.

5.10. On connecting the rope to the final protection point (quickdraw) or in having stopped a fall, the competitor shall be lowered to the ground. Care shall be taken to ensure that the competitor does not come into contact with any ground-based equipment.

5.11. Whilst the competitor is untying the rope from his/her harness, the belayer shall pull the rope down in as fast a manner as is consistent with the quick-draws not being unduly disturbed. It is the responsibility of the belayer to ensure that the competitor vacates the climbing zone as quickly as possible.

5.12. The Category Judge shall be authorised to instruct the organiser to replace any belayer at any time during the round of a competition. If replaced, the belayer shall not be permitted to play any further part in the belaying of any competitor at that competition.

- 7.3. At the end of each round of the competition, the Category Judge shall be immediately provided with a complete and fully ranked list of competitors. Only after this information has been checked (and, where necessary, amended) and officially approved in writing by the Category Judge and the President of the Jury shall this information be made available for publication.
- 7.4. Results Lists: Shall be produced by the height measurement and results service team. All results lists should be in printed form; hand-written lists or sections of lists shall not be permitted.

  - b) The title of the competition (e.g. World Cup);
  - c) Place of the competition (e.g. Rome)
  - d) The type of competition (e.g. Difficulty Competition);
  - e) Date of the competition;
  - f) The title of the round of the competition (e.g. Men's Final);
  - g) When the round of the competition takes place on one or more parallel routes, the results for each route should be clearly identified (e.g. Route A).
  - h) The names, official/functional status and signatures of the presiding officials; i.e. President of the Jury, Category Judge and Route Judge.
  - i) Time when the ranking has been published
- 7.6. End-of-round list of the competitors results shall include the following information:
  - a) Rank position of each competitor in descending order;
  - b) Family name (upper case letters) of each competitor;
  - c) First name (except for the first letter - lower case letters) of each competitor;
  - d) Nationality of each competitor using the IOC-approved three-letter code for each nation;
- 7.7. The final (end-of competition) results list shall include all the items listed in 7.6 above and the following additional information:
  - a) Against each competitor's name, the heights attained in each of the previous rounds of the competition in which he/she competed;
  - b) Full time results of each round of the competition
- 7.8. No other information other than that specified above shall be included on any official results list except where specifically approved by the CEGC/ICCIC.

7.9. Following the approval of the results for each round of the competition (including the final or super-final round), a complete copy of the results shall be immediately issued to:

- a) President of the Jury;

## 8. COMPETITION STARTING LISTS

8.1. The starting list of the opening round shall be compiled and announced during the technical meeting on the day preceding the competition, in accordance with the regulations governing such lists and:

- a) Issued to those listed in 7.6 above;
- b) Published on the official notice board and on other notice boards (e.g. the principal hotels at which the team managers and competitors are staying).

- b) Where the opening round of a competition takes place on two or more parallel routes, the competitors shall be allocated to each route of this round in accordance with:  
Firstly, their respective positions in the current World Cup Ranking (WCR); i.e. in sequence, the WCR ranked competitors shall be allocated successively between the routes. Not ranked competitors shall then be allocated to each route by means of random selection such that an equal (or approximately equal) number of competitors are allocated to each route. Following this allocation procedure, the starting order shall then be determined by the random selection of competitors allocated to a route.
- c) Starting order for the rounds following the opening round: Except as specified below, the starting order shall be determined by the reverse order of the ranking of the previous round (i.e. the first shall start last). In the case of tied competitors from a previous round, the starting order between them shall be made through random selection. - 9.3. A television monitor connected to a video recording system shall be provided for playback of any incident for judging purposes. No one other than the President of the Jury and the Category Judge appointed to a route shall have access to the playback system. The playback monitor shall be placed such that the judges can observe playback material and discuss any incident without the video re-play being seen by anyone other than the judges and without the judges being overheard or interrupted during their discussions, but conveniently close to judges' table.
- 9.4. The CEGC/ICCIC office shall also be provided with a video playback machine and a television monitor to enable the judges to replay video recordings of incidents occurring or having occurred during the competition. ## SECTION FOUR

### COMPETITION REGULATIONS

#### I. GENERAL REGULATIONS

##### 1. CLIMBING STRUCTURE

- 1.1. The surface of the climbing structure shall be permitted to be used for climbing with the exception of explicitly marked zones. These zones and the continuous and clearly identifiable red colored boundaries shall not be touched by any part of the competitor or his/her equipment.
- 1.2. Neither the side-edges nor the top-edge of the wall shall be used for climbing.
- 1.3. If there is a need to demarcate a route on the wall in order to clearly separate it from another, the demarcation shall be made using a continuous and clearly identifiable marking.
- 1.4. The starting point for beginning an attempt, the finish point and the zones on a route must be clearly marked with blue colours.

##### 2. TYPES OF COMPETITION

###### 2.1. Definitions:

- a) Difficulty Competitions: Are defined as those competitions which are climbed on lead, with the competitor belayed from below, where each quickdraw is clipped sequentially in accordance with the regulations, and where the height attained (or, in the case of traverse or roof sections, the greatest distance along the axis of the route) shall determine a competitor's position in a round of the competition;
- b) Difficulty - Duel Competitions: These competitions adopt the same technical rules as those of the normal difficulty competitions but, for the final round of such competition, follow a competitor-elimination format identical to that used in the final round of speed competitions;

- c) Speed Competitions: Are defined as those competitions which are attempted by top-roped competitors, where the time achieved by the competitor in completing a route determines a competitor's position in a round of the competition;
- d) Bouldering Competitions: Are defined as those competitions consisting of a number of individual technical climbing problems. The competitor has several attempts on each problem. Every attempt has to be started from the ground. Subject to the question of safety, each problem shall be attempted either with belayed protection (from above or below) or shall be attempted without belayed protection. The aggregate number of points achieved by a competitor shall determine a competitor's position in a round of the competition.

2.2. Difficulty, Difficulty-Duel and Boulder-competitions may include routes, which are attempted:

- a) On-sight: attempted after an authorised period of observation of the route;
- b) After demonstration of the route by an authorised forerunner;
- c) After authorised practice; i.e. 'after work'.

2.3. Speed Competitions include routes, which are attempted after demonstration of the routes given by an authorised forerunner;

2.4. International competitions may consist of separate categories for Difficulty, Difficulty-Duel, Speed and Bouldering events. Not every category need be provided at all international competitions.

### 3. SAFETY

3.1 Safety matters are dealt with under Section 2, National body or federations - Competition Organisation, Article 5 of these regulations.

### 4. REGISTRATION AND ISOLATION ZONE

4.1. All competitors eligible to compete in a round of a competition shall register and enter the isolation zone no later than the time specified by the President of the Jury and published/announced by the Competition Organiser. It is the responsibility of each team manager to ensure that he/she is fully informed of all details appertaining to a competition.

4.2. Only those persons specified below shall be permitted to enter the isolation zone:

- a) CEGC/ICCIC Officials;
- b) National body or federation/organiser's officials;
- c) Competitors eligible to take part in the current round of the competition;
- d) Authorised team officials;
- e) Other persons specifically authorised by the President of the Jury. Such persons shall, throughout their stay in the isolation zone, be escorted and supervised by an approved official to ensure the maintenance of security of the isolation zone and prevent any undue distraction of, or interference with, any competitor;
- f) Animals shall not be allowed in the isolation zone.

## 5. ROUTE OBSERVATION AND PRACTICE

- 5.1. Observation Period: Except where otherwise specified in the regulations governing Difficulty, Difficulty-Duel, Speed and Bouldering competitions, competitors who are registered to take part in a particular round of the competition heat shall be permitted an observation period before the start of a competition during which they shall be allowed to study the route. Team officials shall not be permitted to accompany the competitors during the observation period. While in the observation area, all competitors shall consider themselves as being under the regulations governing the isolation zone.
- 5.2. The observation period shall be determined by the President of the Jury in consultation with the International Forerunner but should not exceed six (6) minutes for each route.
- 5.3. Competitors must remain within the designated observation zone during the observation period. They are not permitted to climb on the climbing structure or stand on any equipment or furniture. Competitors shall not communicate in any way with any person outside the observation area. They may only seek clarification from either the President of the Jury or from a Category Judge.
- 5.4. During the observation period, competitors may use binoculars to observe the route and make hand-drawn sketches and notes. No other observation or recording equipment shall be permitted. Competitors are allowed to touch the first holds, without leaving the ground with their feet. It is the sole responsibility of each competitor to fully inform him/herself (within the regulations) in respect to all instructions regarding the route that are required to undertake.
- 5.5. Competitors shall have no knowledge of any route other than that obtained during the official observation period.
- 5.6. At the end of the observation period competitors shall immediately return to the isolation zone. Any undue delay to do so may result in the immediate award of a 'Yellow Card'; any further delay shall result in immediate disqualification in accordance with the Section 7, Disciplinary Procedures During Competitions.
- 5.7. Practised (worked) routes: Where pre-practised (worked) routes form part of the competition, the President of the Jury - in consultation with the International Forerunner - shall determine the timetable, procedure and duration of the competitors practice periods.

## 6. PREPARATION PRIOR TO CLIMBING

- 6.1. On receiving an official instruction to leave the isolation zone to proceed to the transit zone, competitors shall not be accompanied by any person other than an authorised official.
- 6.2. On arrival in the transit zone, each competitor shall put on their crampons, tie on to the rope with the approved knot, and make all final preparations for their attempt on a route.
- 6.3. All climbing equipment and the knot used shall be inspected and approved by an authorised official both for safety and compliance with other CEGC/ICCIC regulations before the competitor shall be permitted to proceed to his/her attempt on the route.  
The approved knot is the "figure of eight" knot plus a stopper knot.

Each competitor shall be regarded as entirely and solely responsible for the equipment and clothing that he/she intends to wear during their attempt on a route.

Use of non-approved equipment, knots and/or clothing, or any non-approved modification of the climbing vest, or any non-compliance of the advertising regulations, or any infringement of any part of the CEGC/ICCIC regulations shall make the competitor liable for immediate disqualification. Under no circumstances shall competitors be permitted to return to the isolation zone after leaving for the transit area.

- 6.4. Each competitor shall be ready to leave the transit zone and enter the arena when instructed to do so. Any undue delay to do so may result in the immediate award of a 'Yellow Card'; any further delay shall result in immediate disqualification in accordance with Section 7, Disciplinary Procedures During Competitions.

## 7. WALL MAINTENANCE

- 7.1. The Chief Routesetter shall ensure that an experienced and practised maintenance team is available throughout each round of the competition in order to perform any maintenance and repairs ordered by the Category Judge in an efficient and safe manner. Safety procedures shall be strictly enforced. The President of the Jury shall be authorised to order the dismissal from the competition area of any person who fails to observe safety procedures.
- 7.2. Repair of holds: On the instruction of the Category Judge, the Chief Routesetter shall immediately arrange for any repair work. On completion of a repair, it shall be inspected by the International Forerunner who shall advise the President of the Jury whether the repair results in any unfair advantage or disadvantage to the following competitors. The decision of the President of the Jury to continue, or to stop and re-start, that round of the competition shall be final and no appeal shall be accepted in respect to this decision.
- 7.3. Cleaning of holds and structures: The frequency and method of cleaning holds and structures on the climbing structure shall be decided by the Category Judge (in consultation with the International Forerunner) before the start of each round of the competition and be announced to the competitors during the technical meeting preceding the observation of the routes.
- 7.4. Cleaning of climbing structure (ice/rock): Breaking ice or rock is no technical incident. The president of the jury can order the cleaning of broken ice or rock, if he considers this to be dangerous!

## 8. TECHNICAL INCIDENTS

- 8.1 A technical incident is defined as:

- a) A tight rope, which either assists or hinders a competitor;
- b) A broken or loose hold;
- c) An improperly positioned quickdraw or carabiner;
- d) Any other occurrence that results in a disadvantage or unfair advantage to a competitor which is not the result of an action on the part of the competitor;

8.2 The belayer must leave an appropriate amount of slack in the rope at all times. Any tension on the rope may be deemed as an artificial aid or hindrance to a competitor and a technical incident shall be declared by the Category Judge.

8.3 A technical incident shall be dealt with as follows:

a) If a technical incident is indicated by the Category Judge:  
(i) If the competitor wishes, and is still in a legitimate position, he/she may choose to continue to climb or accept the technical incident. If the competitor chooses to continue to attempt the route, no further appeal connected with that technical incident shall be accepted;  
(ii) If the competitor is in a non-legitimate position due to the technical incident, the Category Judge shall make an immediate decision on whether to declare a technical incident and thereby terminate the competitor's attempt on the route (and in accordance with the rules governing technical incidents, permit the competitor a subsequent attempt) or offer the competitor the opportunity to continue their attempt on the route. If a competitor is offered and accepts the opportunity to continue, no further appeal shall be accepted in respect to that technical incident.

b) If a technical incident is indicated by a competitor:  
(i) While the competitor is climbing, the competitor must specify the nature of the technical incident and, with the agreement of the Category Judge, may continue or cease climbing. If the competitor is in a non-legitimate position due to the incident the Category Judge shall make an immediate decision and that decision shall be final. If the competitor elects to continue to climb, no subsequent appeal shall be accepted in respect to that technical incident.  
(ii) If a competitor falls and claims that a technical incident precipitated the fall, the competitor shall be immediately escorted to the special isolation zone to await the outcome of the investigation of the claimed technical incident. The Chief Routesetter shall immediately check (and where appropriate correct) the claimed technical incident and report to the International Forerunner, Category Judge and the President of the Jury. The decision of the President of the Jury (having taken into account the technical incident and any misuse of a hold by a competitor) shall be final and no appeal shall be accepted in respect to this decision.

c) The competitor subject to a confirmed technical incident shall be allowed a recuperation period in a separate isolation zone and must not be permitted to come into contact with any other person other than CEGC/ICCIC or Organiser's officials. The competitor must decide immediately when he/she wishes to start his/her next attempt on the route, which must be either after the immediately following competitor or before the fifth following competitor. The competitor shall be allowed a minimum of 20 minutes between attempts on the route;

d) On completion of a legitimate attempt on a route, a competitor shall be recorded as having achieved the best result of his/her permitted attempts on the route.

## 9. RANKING AFTER EACH ROUND

9.1. The ranking after each round of a Difficulty, Difficulty-Duel, Speed or Bouldering competition shall be determined in accordance with the relevant regulations governing that form of competition.

## 10. TERMINATION OF AN ATTEMPT ON A ROUTE

- 10.1. A competitor's attempt on a route shall be terminated in accordance with the relevant regulations governing that form of competition.
- 10.2. A competitor shall be permitted to down-climb at any time during his/her attempt on a route as long as he/she is not in violation of regulations governing the termination of an attempt on a route.

## II. DIFFICULTY COMPETITIONS REGULATIONS

### 1. INTRODUCTION

- 1.1. These regulations shall be read in conjunction with the CEGC/ICCIC's General Regulations governing international climbing competitions.
- 1.2. All Difficulty competition routes shall be climbed on lead with the competitor belayed from below.
- 1.3. A route shall be considered successfully completed if it is climbed in accordance with the regulations and rules governing Difficulty competitions, if the rope is safely clipped into the carabiner on the final quickdraw by the competitor and he has put both ice-axes on the finish point.

### 2. NUMBER OF COMPETITORS AND THE STARTING ORDER

- 2.1. Except where otherwise specifically defined (e.g. World Cup competitions), rounds of a competition (other than the final and superfinal) held on a single route: The starting order for these rounds will be determined by random selection of the competitors.
- 2.2. Rounds of a competition (other than the final and superfinal), which are held on two or more separate routes: The competitors shall be allocated between the routes as follows:
  - a) The first round of a competition held on two or more routes of similar difficulty, the competitors shall be allocated to these routes by random selection;
  - b) Subsequent rounds held on two or more routes of similar difficulty, the competitors shall be allocated to these routes, alternatively, in the order in which they have finished in the previous round; e.g. previous rank order 1, 2, 3, 4, etc., shall be allocated to routes A and B in the order - competitors 1 and 3 allocated to route A and competitors 2 and 4 to route B and so forth. On completion of this allocation the starting order shall be determined through random selection.
  - c) Final Round: The starting order shall be in the reverse order of the ranking of the semi-final round. If after the application of the countback procedure there are competitors who are tied and share places, the starting order for these tied places shall be decided by random selection.
  - d) Superfinal: The starting order shall be the same as for the final round of the competition.

### 3. OBSERVATION PERIOD

- 3.1. In accordance with the General Regulations, competitors (as a group) shall be permitted to observe the on-sight route they are required to attempt.
- 3.2. In the case of the superfinal, the President of the Jury may decide not to permit an observation period.

### 4. CLIMBING PROCEDURE

- 4.1. Each route shall be allocated a pre-determined period in which a competitor may attempt the route.
- 4.2. Each competitor's attempt shall be deemed to have started when one ice-axe has left the starting point.
- 4.3. A competitor may ask the Category Judge at any time during his/her attempt on the route how much of the allotted route-time remains, and the Category Judge shall immediately inform the competitor of the remaining time. The Category Judge shall also inform a competitor when only 60 seconds of the allocated route-time remains. When the route-time has ended, the Category Judge shall stop the competitor and instruct the measurement procedure to take place. A competitor who fails to obey the Category Judge's instruction to stop climbing shall be liable to the disciplinary procedures specified in Section 7, Disciplinary Procedures During Competitions.
- 4.4. During the attempt on a route:
  - a) Each competitor shall snaplink each carabiner/quickdraw in sequence. Each carabiner must be snaplinked before the lowest part of the competitor's body has moved above the lowest carabiner connected to a quickdraw (in the case of a traverse or roof section of the route, before the competitor's body has moved beyond an unclipped carabiner/quickdraw in the line of the route as defined by the International Forerunner). Any violation of this rule shall result in the competitor's attempt on the route being terminated and a measurement taken in accordance with Article 5 below. The refusal by a competitor to obey the instruction of a Category Judge to terminate his/her attempt on a route shall make the competitor liable to the disciplinary procedures specified in Section 6, Disciplinary Procedures During Competitions.
  - b) In special circumstances (e.g. in the interests of safety) the President of the Jury shall be authorised to amend Article 4.5(a) above for a particular route; in this case the last legitimate position to clip is the last hold from which the competitor can clip without downclimbing or backclimbing.
  - c) A competitor may downclimb at any point during his/her attempt on a route as long as he/she is not in violation of Article 4.5.a) or returns to the ground.
  - d) Where a competitor clips the rope into a carabiner in accordance with Article 4.5(a) above, but where some technical error has occurred, the competitor shall be permitted to clip the next carabiner in sequence and then unclip and reclip (if necessary, by downclimbing) the previous carabiner. At the end, all the protection points must be clipped in.  
The Category Judge may order that the attempt be terminated and the greatest height (or greatest distance) measured if he/she decides that to proceed further would contravene the safety regulations.

## 5. HEIGHT MEASUREMENT

- 5.1. In accordance with Article 8 below, in the event of a fall or the Category Judge instructing a competitor to stop climbing, the highest point reached with the iceaxe (or in the case of a traverse or roof section of a route, the furthest point reached with the iceaxe), in the line and in the climbing sequence of the route as determined by the International Forerunner, shall be measured. Criteria for measurement is the last clipped quickdraw. In ice the distance between two quickdraws is divided into zones of  $\frac{3}{3}$  (e.g. reached height is  $7\frac{2}{3}$ ); in drytooling parts (especially in bouldering) the zones between the quickdraws are ruled by the numbers of holds (e.g. five holds between two quickdraws gives  $\frac{5}{5}$  zones). Each iceaxe placement or hold (only handholds shall be considered) shall be deemed as such by the International Forerunner before the start of a round of the competition or following positive use by a competitor during that round of the competition. The zone is valid, if 2 axes are in the zone, or one axe is in the zone and the other no more in the previous zone.
- 5.2. As determined by the Category Judge, a placement or hold that is 'held' shall be considered as having a higher ranking than a point or hold that is 'touched':
  - a) A placement or hold that is 'held' shall be given the height of the hold with no suffix;
  - b) A point or hold that is 'touched' shall be given that height with a minus (-) suffix;
  - c) A placement or hold which is 'held' and from which a climbing movement is made in the interest of progressing along the route shall be given that height of the hold 'held' with a plus (+) suffix.
- 5.3. If a competitor takes hold of the final quickdraw before the rope is safely clipped into the final carabiner, this shall be considered as an artificial aid and the competitor's attempt on the route shall be terminated and measured in accordance with Article 5.1 and Article 5.2.

## 6. RANKING AFTER EACH ROUND OF THE COMPETITION

- 6.1. After each round of the competition, the competitors shall be ranked according to Article 5.2.
- 6.2. Except for the case specified in Art. 6.3., in the case of tied places, a countback procedure shall be used such that the results of the previous round shall be taken into account in separating tied competitors. If ties remain, successively earlier rounds shall be taken into account in the countback procedure. The countback procedure shall not be used beyond the point where competitors have competed in a round on two or more non-identical routes. If ties still remain, the athletes are considered ex-aequo.
- 6.3. If two or more athletes reach top in any round, the climber's time of that round is decisive for his/her ranking: the faster competitor is being ranked ahead of the slower.
- 6.4. When not otherwise specified in the competition format, if a qualifying round of a competition requires that the competitors be allocated between two or more non-identical routes having the same technical grade, for those competitors who do not qualify for the following round, the final

ranking shall be determined by the aggregate place achieved on the ranking of the combined routes.

- 6.5. Superfinal: If, after applying the countback procedure at the end of the final round of the competition, there exists a tie for the first place, a superfinal shall be held. If a tie exists at the end of a superfinal, the competitors that remain tied shall be deemed equal and the competition will be terminated.

## 7. QUOTAS FOR EACH ROUND

- 7.1. Article 7 must be read in conjunction with Article 6 above; i.e. the ranking procedure must first be completed before Article 7 is applied.
- 7.2. Where there are insufficient competitors who have successfully completed the route in the preceding round of the competition, the remaining places of the fixed quota shall be filled by the next best-ranked competitors.
- 7.3. The fixed quota of competitors qualifying for the semi-final and final shall be, respectively, 18 and 8 competitors
- 7.4. Semi-Final and Final Rounds - Floating Quotas: If the fixed quotas for the semi-final and final rounds of the competition are exceeded as a result of tied places following the application of the countback procedure, the number of competitors nearest to the fixed quota (when calculated from above and below) shall qualify for the next round of the competition subject to the condition that the semi-final and final rounds shall consist of, respectively, not less than 15 and 6 competitors;
- 7.5. When the number of competitors qualifying for the final round exceeds the fixed quota as a result of tied places following the application of the countback procedure is the same when calculated from above and below, the number of competitors corresponding to the greater quota qualify for the final round.
- 7.6. Under special circumstances (e.g. TV live broadcasting requirements), the smaller quota may be taken: this decision shall be announced by the President of the Jury after consulting the organiser, in the technical meeting prior to the competition.

## 8. TERMINATION OF AN ATTEMPT ON A ROUTE

- 8.1. Successful Attempt on a Route: A competitor shall be deemed to have successfully completed an attempt on a route if that attempt is in accordance with Article 1.3 above.
- 8.2. Unsuccessful Attempt on a Route: A competitor shall be deemed to have unsuccessfully completed an attempt in a route if he/she:
  - a) Falls;
  - b) Exceeds the permitted time for the route;
  - c) Uses any part of the wall surface beyond the marked boundaries of the route;
  - d) Uses the side-edges or top-edges of the wall;
  - e) Fails to snap link a quickdraw in accordance with regulations governing the competition;
  - f) Once having started, touches the ground with any part of the body;

g) Uses any artificial aid.

### III. SPEED COMPETITIONS REGULATIONS

#### 1. INTRODUCTION

- 1.1. These regulations shall be read in conjunction with the CEGC/ICCIC's General Regulations governing international iceclimbing competitions.
- 1.2. All Speed competition routes shall be climbed on top rope.

- 7.5. When the number of competitors qualifying for the final round exceeds the fixed quota as a result of tied places following the application of the countback procedure is the same when calculated from above and below, the number of competitors corresponding to the greater quota qualify for the final round.
